

# UNE BELLE HISTOIRE

*de la Jasse*

La Jasse has many stories... here is one between vineyards and scrubland, on the favourite path of the Le Breton family. It was here that the family found a way to make their dream come true: to create a unique wine that would reflect the beauty and the richness of their terroir.

The choice fell on the Rolle: for the gourmet of its berries, and the acidity of its juice. Its tiny bubbles that dance on the surface of each glass make it a cuvée as light as it is tasty.

The grapes grow in the heart of the scrubland facing the rising sun. It is here that the Le Breton family encounters the most beautiful migratory birds in this agroforestry plot. The wind dances in the leaves of almond trees, oaks and olive trees, and the sun shines on the marigold petals between the vines.

A fresh cuvée to savor with loved ones. A cuvée without concern or pretension that invites you to share stories...

And you, what is your beautiful story?

100% Rolle
